

ENVIRONMENTAL SERVICES IN EXPLORATION AND SMALL-SCALE MINING

Integrate Sustainability Pty Ltd. is a specialist environmental, heritage, native title and safety consulting company based in Western Australia. We offer a range of tailored services to assist small and large businesses across a wide range of sectors in Australia and overseas. Our highly experienced team is led by Belinda Bastow and has over 40 years' experience across regional WA.

Managing baseline surveys and approvals can be costly, time-consuming and result in delays if poorly managed. Integrate Sustainability has detailed knowledge of the Australian Federal and State environmental approval processes and can assist at with all aspects of mining activities throughout exploration, approvals, operation and closure, including:

- Programmes of Work
- Commonwealth and State Approvals – Advice, Preparation and Submission.
- Preparation of Management Plans and Procedures
- Ecological and Heritage Surveys
- Advice on Site Selection and Layout
- Stakeholder and Community Engagement
- Environmental Impact Assessment
- Regulator liaison and negotiation
- Environmental Monitoring and Reporting
- Mine Closure Plan Preparation and Review

Integrate Sustainability continues to establish and maintain strong working relationships with a broad range of expert sub-consultants and field specialists across all disciplines throughout Western Australia. Please contact us to discuss your project further and how we can assist.
