

ENVIRONMENT, HERITAGE LEGAL STRATEGY & SUPPORT

Integrate Sustainability and Lantegy Legal work together to provide clients with tailored solutions that protect their licence to operate, minimise the impact of their operations on the environments and communities they operate in, and meet their legal and compliance obligations.

Integrate Sustainability

- Environmental Impact Assessments
- Mapping environmental impacts and risks
- Environmental procedures and management plans
- ISO 14001 implementation / GAP analysis
- Environmental policy development
- Compliance identification and registers
- Environmental education and inductions
- Environmental monitoring programs
- Native Title and heritage legislation awareness and cultural awareness training
- Community engagement strategies
- Processes and procedures for Aboriginal heritage and native title land access agreements

Lantegy Legal

- Environmental impact assessment documentation and reviews
- Environmental licensing
- Water regulation and licensing
- Contaminated sites management
- Land tenure, including mining and petroleum tenure and Crown land leasing
- Native title negotiations and documentation
- Aboriginal heritage approvals
- Decommissioning and rehabilitation planning and implementation
- Compliance registers and documentation
- Environmental compliance training
- Regulatory audits and investigations
